Textbook: Special Kent State edition of Algebra and Trigonometry, 4th Edition; Beecher/Penna/Bittinger, with MyLabsPlus software
Read the textbook! All the material covered is there, with thorough explanations and examples. Work out examples and exercises on your own! Active work is the only way to master the subject. Use my office hours! I will be there to help you.

MyLabsPlus: Go to http://kent.mylabsplus.com . Your login name is your Kent Flashline ID name. Your password is ksu2012 (ALL lower case!). See the Student Registration Procedures handout on the our course webpage for more detailed directions. If you already have a MLP account, please use that login and password.

You may use a scientific or graphing calculator. (You may not use a cell phone, etc., as a calculator.)

As a student enrolled in this class, you are expected to attend every class. A record of your attendance will be kept. If missing a class is unavoidable, you are still responsible for all material covered and all announcements and assignments made during your absence. A tentative weekly schedule is listed on our course webpage. You are also responsible for checking your kent.edu email account on a regular basis for possible messages.

Please put all cell phones, etc., away during class.
