Stem and Leaf Plots

A random group of 22 college students took a standardized aptitude test. Their scores were:

| 262 | 243 | 228 | 231 | 236 |
|-----|-----|-----|-----|-----|
| 258 | 247 | 249 | 262 | 237 |
| 259 | 250 | 265 | 253 | 232 |
| 249 | 258 | 235 | 269 | 244 |
| 263 | 255 | | | |

Construct a stem-and-leaf display for this data. Be sure to include a key. Summarize the important features of the numerical distribution.
