

Pathways Reading Guide M4 Section 5

Please read Module 4, section1 in your e-book, pp. 28 – 30. (Click on Module 4, then “text.”)

Be sure to *read with a pencil in hand* and attempt the examples before you read the solution given. Take notes of important definitions and ideas as you read. I don't expect you to have 100% comprehension of everything in the section, but spending significant time trying to understand the main ideas will assist you as you work on the Investigation during our next class.

This section gives further examples about n-unit growth and decay factors. Study through the examples *with a pencil!*
