

The Mathematical Sciences Undergraduate Colloquium

presents...

An Undergraduate Research Experience in Modern Algebra

THE SPEAKER, FIRST FROM LEFT, WITH REU COLLEAGUES

Mr. Zach Riel

Date: Friday, April 13, 2007

Time: 4:00 PM

Place: MSB 115

Abstract:

What is an REU program, what does it involve, and how does one get involved? Zach Riel, an undergraduate mathematics student, participated in a mathematics REU program at SUNY Potsdam over the Summer of 2006. He will discuss his experience with the REU program. He will also briefly discuss the mathematics research that he did in Group Theory over the summer. Here, students will have a chance to see what an REU program is all about and how to participate in one.

About the Speaker:

Zach Riel is currently an undergraduate student, majoring in mathematics, and will be graduating in May. Also, in August, he will begin his graduate studies in the mathematics department at the University of Missouri-Columbia.

Pizza and Drinks will be served!
