- Video and pdf for lecture notes as well as home works will be posted on the course homepage. In general the lecture notes should be sufficient for you to learn and the book is not required. "Introductory Statistics" and "Introduction to Probability Models" by Sheldon Ross may be useful, but not required!

Statement on enrollment/official registration:

The official registration deadline for this course is 09/04/16. University policy requires all students to be officially registered in each class they are attending. Students who are not officially registered for a course by published deadlines should not be attending classes and will not receive credit or a grade for the course. Each student must confirm enrollment by checking his/her class schedule (using Student Tools in FlashLine) prior to the deadline indicated. Registration errors must be corrected prior to the deadline
